

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

Tollway Headquarters

2700 Ogden Avenue

Downers Grove, Illinois 60515

Governor JB Pritzker
Secretary Omer Osman
Director James Connolly
Director Stephen Davis
Director Alice Gallagher

Director Karen McConnaughay
Director Scott Paddock
Director Gary Perinar
Director James Sweeney

Pursuant to the requirements of the Authority's By-Laws, Notice is hereby given of the Regular Board Meeting of the Authority to be held on Thursday, October 15, 2020 at 10:00 a.m. Due to necessary precautions relating to Coronavirus (COVID-19), in accordance with the Gubernatorial Disaster Proclamation and current conditions, and consistent with the legislature's recent amendments to the Open Meeting Act, 5 ILCS 120/7(e), which suspend the requirement of a physical quorum, the October 15, 2020 Board Meeting will be held telephonically.

There will be live audio feed of the committee meetings and board meeting available on the Tollway website at www.illinoistollway.com while in session. Members of the public who wish to make public comment may participate via audio conference call by calling 1-800-875-3456 and provide the verbal passcode: "Tollway".

Willard S. Evans, Jr., Chairman

An audio file will be available five business days after the meeting at www.illinoistollway.com, and written meeting minutes will be available at www.illinoistollway.com after their approval at the next regular Board meeting.

Upon notification of anticipated participation, the Tollway will endeavor to ensure that individuals with disabilities can participate in this meeting. Persons with disabilities who plan to participate and need accommodations to do so should contact the EEO/AA/ADA Officer of The Illinois State Toll Highway Authority at (630) 241-6800, Ext. 1010, at least two days in advance of the meeting, and if possible, the Tollway will provide reasonable accommodations. Related information, which may or may not be applicable to this telephonic meeting, can be found on the Tollway's website:

<https://www.illinoistollway.com/about/board-information/>.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

Order against a CMS Master Contract

Contract #: 19-0171

Vendor: CMS Master contract with the insurance broker Mesirow Insurance Services for insurance coverages required by the state. Per the terms of the CMS Master Contract, the Tollway is required to use the Joint Purchasing Master Contract (JPMC) Insurance Brokerage Services of Mesirow Insurance Services.

Description: The Finance Department recommends acceptance of a proposal for an Owner Provided Insurance program known as a Rolling Owner Controlled Insurance Program (ROCIP). A ROCIP is an ongoing, or rolling, controlled insurance program. The ROCIP insures ongoing construction programs covering multiple projects. Projects are rolled into and out of the program as they are started and completed. The date projects are removed from the program can vary but most provide an extended period of completed operations coverage. The coverage will be General Liability only and will allow smaller businesses to bid without having to procure the limits required by the Tollway. The primary insurance broker for these policies will be Mesirow Insurance Services with a BEP partner, Charles Smith of CS Insurance Strategies, Inc.

Scope: Request approval of a three (3) year program beginning 01/01/2021 through 12/31/2023 obtained through a CMS Master Contract for Insurance Broker Services.

Amount: \$3.9 million estimated premium including fees, claims administration and loss fund based on contract value of \$75,073,927.00 to be audited annually for the three-year term.

Company Information

Allied World Surplus Lines Insurance Company (1st and 2nd layers) rated A (XV), Illinois Union Insurance Company (3rd layer) Rated A++ (XV), Underwriters at Lloyd's of London (4th layer) rated A (XV), Wrap Up Solutions, Inc. with a sub GBG, Inc (Wrap-Up Administrators)

**Authorize issuance of \$100 million of Revenue Bonds
to finance costs of the Move Illinois Program**

Exhibit A

Summary of Requests in the Bond Issuance Authorization

- Authorize issuance of up to \$100 million of senior lien, fixed rate revenue bonds to finance: a portion of the *Move Illinois* Capital Program; a deposit to the Debt Reserve Account; and issuance costs
 - change to variable rate or change to lien status would require return to Board
- Authorize redemption provisions
- Authorize the following bond-related documentation, to be executed by the Chairman:
 - Bond Purchase Agreement
 - Preliminary Official Statement and Official Statement
 - Supplemental Indenture
 - Continuing Disclosure Undertaking
- Authorize the Chairman, Executive Director, Secretary, Chief Financial Officer, General Counsel, and Chief Engineering Officer to do all such acts and things and to execute and deliver all such other documents, agreements and certificates and perform such other acts as may be necessary or desirable in connection with the issuance of the Bonds and execution and delivery of the Supplemental Indenture, Bond Purchase Agreement, Official Statement and Continuing Disclosure Agreement.

NOTE: The authorization described above is expected to be used in combination with \$400 million of remaining bond authorization under Resolution No. 21477 dated February 22, 2018, towards issuance of \$500 million of fixed rate, senior lien revenue bonds in the fourth quarter of 2020.

Contract Renewal – State Use Program

Contract #: 17-0172**Vendor:** Ada S. McKinley Community Services, Inc.; Chicago, IL (State Use Vendor)**Description:** Transponder Fulfillment Services

Scope: This contract provides a source for the purchase of transponder fulfillment services. Ada S. McKinley fulfills orders received via the Tollway’s website, call center, and postal mail. The Illinois Tollway fills more than 300,000 new I-PASS transponder orders per year via this contract and has issued more than five million transponders to date. Additionally, Ada S. McKinley provides services to support the commercial transponder replacement program which exchanges expired transponders for commercial accountholders. Transponder fulfillment services are critical to the I-PASS program which accounts for more than 90 percent of all toll revenue collected.

Amount: \$2,434,198.00

Company Information

Ada S. McKinley was founded in 1919 and works to bring positive change to the lives of thousands of individuals through social services. Through the Division of Adult Rehabilitation Services (“DOARS”), Ada S. McKinley works to remove the barriers that prevent adults living with disabilities from achieving employment. DOARS operates a wide network of support services with three vocational training facilities across the city of Chicago, as well as work-placement partnerships with a number of government offices and other organizations. Ada S. McKinley is certified as a Sheltered Workshop (SWS) in the State Use Program.

Contract Award – Construction

Contract #: I-20-4541

Vendor: Lorig Construction Company; Des Plaines, IL

Subcontractors: AC Iron, LLC (D/MBE); Industrial Fence, Inc. (D/MBE/VOSB)

Description: Noise Abatement Wall Construction

Location: Tri-State Tollway (I-294) between MP 37.7 (O'Hare Oasis) and MP 38.3 (Irving Park Road)

Scope: This construction contract provides for noise abatement wall construction between the O'Hare Oasis and Irving Park Road. The work also includes removal of existing wooden sight screen from O'Hare Oasis East parking lot and existing guardrail; removal of concrete barrier, shoulder, pavement, and guardrail from Irving Park Road Ramp; grading, guardrail installation, and maintenance of traffic for Irving Park Road detour.

Amount: \$4,331,231.35

Company Information

Lorig Construction Company is a family owned business that was founded in 1986. The firm is incorporated in Illinois and is headquartered in Des Plaines, IL, and has a staff of over 300. Lorig provides bridge and structural concrete construction, road construction, earth retention systems, pile driving, and sound wall construction.

Extra Work Order

Contract #: I-18-4427

Vendor: Plote Construction, Inc. / Dunnet Bay Construction Co., JV; Hoffman Estates, IL

Description: Roadway and Bridge Rehabilitation

Location: Tri-State Tollway (I-294) from MP 37.85 to MP 40.15

Change Amount: \$503,820.63

Reason: This construction contract extra work order provides for unanticipated joint repairs to both the northbound and southbound bridges carrying the Tri-State Tollway (I-294) over the Canadian National Railway. The need for the added work was initially identified during snow removal operations last year and an initial authorization provided for procurement of materials for the permanent repair. Work impacted all lanes of traffic and needed to be scheduled during off peak times and required coordination with the Railroad to allow for unanticipated access. Due to complexity and uncertainty on allowable times to perform the work it was agreed to track actual costs based on time and materials used. These records and the final costs are now being finalized.

Impact on Completion: No current impact.

Company Information

Plote Construction was founded in 1964 and incorporated in Illinois. They are headquartered in Hoffman Estates, IL, and provides construction services including excavation, grading and building.

Dunnet Bay Construction is a private company that was established in 1983 and is headquartered in Glendale Heights. The firm specializes in heavy highway construction services.

Extra Work Order

Contract #: I-18-4374

Vendor: Lorig Construction Company; Des Plaines, IL

Description: Roadway and Bridge Reconstruction

Location: Tri-State Tollway Edens Spur (I-94) from MP 29.0 (West of Union Pacific Railroad) to MP 30.0 (Edens Expressway)

Change Amount: \$584,985.00

Reason: This construction contract extra work order will provide for schedule recovery, in the form of premium time for extended shifts and weekend work, required to return the reconstructed Edens Spur (I-94) to Tollway customers by the end of this year and minimize potential cost impacts of extending the project. This added work is necessary to recover time lost due to delays in obtaining Union Pacific railroad right of entry.

Impact on Completion: No current impact.

Company Information

Lorig Construction Company is a family owned business that was founded in 1986. The firm is incorporated in Illinois and is headquartered in Des Plaines, IL, and has a staff of over 300. Extra Work Order

Contract #: I-19-4449

Vendor: Plote Construction, Inc. / Dunnet Bay Construction Co., JV; Hoffman Estates, IL

Description: Roadway and Bridge Widening and Rehabilitation

Location: Tri-State Tollway (I-294) from MP 36.3 (Wolf Road) to MP 39.8 (Balmoral Avenue)

Change Amount: \$500,000.00

Reason: This construction contract extra work order provides for schedule recovery, in the form of additional mobilizations, resequencing of work and premium time required to install the on-going work on Tri-State Tollway (I-294) bridges over Bensenville in an acceptable configuration for winter traffic. This schedule recovery effort will mitigate delays incurred to redesign and address added work associated with an existing retaining wall.

Impact on Completion: No current impact.

Company Information

Plote Construction was founded in 1964 and incorporated in Illinois. They are headquartered in Hoffman Estates, IL and provides construction services including excavation, grading and building.

Dunnet Bay Construction is a private company that was established in 1983 and is headquartered in Glendale Heights. The firm specializes in heavy highway construction services.

Contract Award – Tollway Invitation for Bid

Contract #: 18-0111RRR

Vendors: William Charles Construction Company, LLC; Rockford, IL \$144,900.00
 Tiles In Style LLC (d.b.a. Taza Supplies); Willowbrook, IL (BEP/SB) \$94,395.00
 Civil Constructors, Inc.; Freeport, IL \$74,250.00

Description: Stone, Gravel, and Limestone

Scope: This contract provides a source for the purchase of various grades of stone, gravel, and limestone for ongoing maintenance of the Illinois Tollway’s roadway system. All stone, gravel and limestone orders shall be picked up by the Tollway at the awarded vendor’s pit-quarry.

Amount: \$627,090.00 (total requested for the initial term and the possible renewal term)

Company Information

William Charles Construction Company is a limited liability company with 61 years in business and approximately 240 employees. They specialize in construction services and road and highway building materials.

Tiles in Style (doing business as Taza Supplies) is a limited liability company with 13 years in business and approximately 10 employees. They specialize in governmental procurement needs for construction goods and technology products. Tiles in Style is a BEP certified vendor. They are also a registered small business in the State of Illinois.

Civil Constructors is incorporated with 74 years in business with approximately 210 employees. They are a prime contractor for commercial and industrial public works projects.

Land Acquisition - Sale of Excess Property

Contract #: N/A

Description: This resolution authorizes the sale of Parcel TW-3B-229.2.EX, located west of I-294 and north of 75th Street to the Village of Hodgkins.

Scope: Land Acquisition has been approached by the Village of Hodgkins to sell the parcel which would provide for development purposes.

- Date of original purchase: 1/20/94;
- The excess property consists of 31,874 square feet;
- Proposed development: The property will be used for customer parking and a drive through for a restaurant. Given the proximity to I-294, the drive through and the customer parking from the property will be essential for the success of the project. If the project is fully implemented, it will be a significant benefit for the City of Countryside, Village of Hodgkins and State of Illinois. The Tollway is also considering implementing commercial vehicle parking within existing Tollway right-of-way in a nearby location. The development of a restaurant would complement commercial parking by providing food and other amenities.

The Excess Property Committee determined the parcel was excess to the Tollway's needs and approved the parcel to be sold via Quitclaim.

Amount: \$446,236.00

Land Acquisition - Transfer of Excess Property

Contract #: N/A

Description: This resolution authorizes the transfer of Parcels NW-7B-12-901.2.EX and N-7B-45.3EX, located along Jarvis Avenue, Des Plaines, Il. to Chicago Title Land Trust Company as Trustee under Trust Agreement dated March 14, 2011 known as Trust No. 8002356758 (Ozinga).

Scope: As part of the settlement agreement between the Illinois Tollway (Tollway) and Ozinga for acquisition of Parcel NW-7B-12-003, a portion of Tollway right of way Parcels NW-7B-12-901 and N-7B-45.3 are required to be transferred to Ozinga.

- Date of original purchases: Parcel NW-7B-901.2 8/26/20 and Parcel N-7B-45.3 5/20/57;
- The excess property consists of 49,890 square feet;
- The Tollway acquired Parcel NW-7B-12-901 for the Elgin O'Hare Western Access (EOWA) Project from the City of Des Plaines at no cost in 2020. The parcel is located at the westerly end of Jarvis Avenue in Des Plaines. This portion of Jarvis Avenue previously provided access to the Des Plaines Oasis, which was removed in 2015 for construction of the EOWA project improvements. The acquisition of this parcel was required for construction of the I-90/I-490 system interchange, including, but not limited to, for earthwork and utility relocation;
- The excess Parcel NW-7B-12-901.2EX is not required for operation or maintenance of the toll highway system. Tollway Maintenance will be able to access the future I-490 corridor via an access road owned and operated by the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC) at the Touhy Avenue Reservoir located east of the excess parcel along existing Jarvis Avenue;
- The Tollway acquired Parcel NW-7B-45.3 for construction and operation of the Des Plaines Oasis in 1957, with 3.31+/- acres currently remaining as Tollway owned land. The parcel is located north of the westerly end of Jarvis Avenue in Des Plaines. As part of the EOWA project improvements, the Des Plaines Oasis was demolished in 2015;
- The excess Parcel N-7B-45.3EX is not required for operation or maintenance of the toll highway system; however, the Tollway will retain a Permanent Easement along the northwestern limits of the excess parcel. The permanent easement is required for future maintenance access to the back of the retaining wall located along the proposed northbound I-490 to eastbound I-90 ramp.

The Excess Property Committee determined the parcels are excess to the Tollway's needs and approved the parcels to be transferred via Quitclaim.

Intergovernmental Agreement

Contract #: N/A

Description: An Intergovernmental Agreement with the Village of Hodgkins (“Village”)

Scope: The Tollway owns approximately 31,874 square feet of real property located north of 75th Street and west of the southbound I-294 75th Street exit ramp (“Parcel”). The Village submitted a request to purchase the Parcel for the purpose of economic development. The Tollway does not anticipate needing the Parcel for toll highway maintenance, operations or future construction improvements and regards the Parcel as excess to its needs. Accordingly, the Tollway declared the Parcel Excess Property and agrees it should convey the Parcel to the Village at fair market value, specifically, \$14.00 per square foot. If the Village reconveys the Parcel, the Village will reimburse the Tollway any amount in excess of \$14.00 per square foot that it recovers.

Amount: IGA cost: The Tollway will receive approximately \$446,236.00 for the Parcel.

DRAFT

September 24, 2020

Ms. Cathy R. Williams
Chief Financial Officer
Illinois State Toll Highway Authority
2700 Ogden Avenue
Downers Grove, Illinois 60515

RE: Consulting Engineers Services - RR-15-9975RR
2021 Renewal and Replacement Deposit

Dear Ms. Williams:

WSP USA Inc. (WSP) as the Consulting Engineers for the Illinois Tollway, has reviewed the renewal and replacement needs of the Illinois Tollway system in order to develop our recommendation for the deposit to be made to the Renewal and Replacement (R&R) Account in 2021. In addition to the maintenance and rehabilitation needs of the system, the Amended and Restated Trust Indenture, dated March 31, 1999 also permits the purchase of capital equipment under the R&R Account.

On September 17, 2020, the Illinois Tollway provided WSP with projected annual capital expenditures for the R&R Account for the years 2021 through 2027. These projected expenditures were developed by the Program Management Office (PMO) based upon methods understood by WSP to be consistent with sound engineering practice. The Illinois Tollway also identified the projected ending balance of the R&R Account for 2020 as approximately \$173 million, which includes the 2020 R&R deposit. WSP reviewed the data provided by the Illinois Tollway to identify the estimated deposits through 2027 required to maintain reasonable account balances based upon the estimated funds available and potential capital expenditures.

The PMO has estimated total draws for the R&R Program in 2021 to be approximately \$287 million. The combination of deposits and draws on the cash balance of the R&R Account will fund the projects in the Program, I-PASS Transponders, Information Technology projects, the Intelligent Transportation Systems program, and other Capital Projects. These values appear reasonable under the circumstances under which this letter was prepared. Based on these values, we recommend a deposit of \$228 million to the R&R Account for 2021.

The Illinois Tollway did not request WSP to provide and WSP does not offer to provide any services constituting the services of "municipal advisor" as defined in Federal Law (such as the Dodd-Frank Wall Street Reform and Consumer Protection Act), nor does WSP owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934 to the Illinois Tollway with respect to the information and material contained in this letter. This letter is based on WSP's professional judgement regarding the Illinois Tollway's practices, our understanding and judgment regarding setting levels for the R&R Account for

DRAFT

ILLINOIS
TOLLWAY GEC

2021, and our reliance of information supplied to us by the PMO. WSP does not make any warranty or representation that projected values mentioned here will actually be realized or achieved in 2021.

If we can be of further assistance, please feel free to contact me.

Sincerely,

WSP USA Inc.

RE: Consulting Engineers Services - RR-15-9975RR
2020 Renewal and Replacement Deposit

Dear Ms. Williams:

WSP USA Inc. (WSP) as the Consulting Engineers for the Illinois Tollway, reviewed the renewal and replacement needs of the Illinois Tollway system in order to develop our recommendation for the deposit to be made to the Renewal and Replacement (R&R) Account in 2020. In addition to the maintenance and rehabilitation needs of the system, the Amended and Restated Trust Indenture, dated March 31, 1999 also permits the purchase of capital equipment under the R&R Account. WSP communicated its recommendations regarding same to the Illinois Tollway via letter dated September 26, 2019 (copy attached).

On September 17, 2020, the Illinois Tollway provided WSP an audited ending balance of the 2019 R&R Account of \$371 million. The PMO has also updated estimated total draws for the R&R Program in 2020 to be approximately \$318 million. Based on this information, WSP amends the September 26, 2019 letter to reflect a recommended a deposit of \$120 million to the R&R Account in 2020.

The Illinois Tollway did not request WSP to provide and WSP does not offer to provide any services constituting the services of "municipal advisor" as defined in Federal Law (such as the Dodd-Frank Wall Street Reform and Consumer Protection Act), nor does WSP owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934 to the Illinois Tollway with respect to the information and material contained in this letter. This letter is based on WSP's professional judgement regarding the Illinois Tollway's practices, our understanding and judgment regarding setting levels for the R&R Account for 2020, and our reliance of information supplied to us by the PMO. WSP does not make any warranty or representation that projected values mentioned here will actually be realized or achieved in 2020.

Attachment: 2020 Renewal and Replacement Deposit, dated September 26, 2019

DRAFT

September 26, 2019

Mr. Michael Colsch
Chief Financial Officer
Illinois State Toll Highway Authority
2700 Ogden Avenue
Downers Grove, Illinois 60515

RE: Consulting Engineers Services - RR-15-9975RR
2020 Renewal and Replacement Deposit

Dear Mr. Colsch:

WSP USA Inc. (WSP) as the Consulting Engineers for the Illinois Tollway, has reviewed the renewal and replacement needs of the Illinois Tollway system in order to develop our recommendation for the deposit to be made to the Renewal and Replacement (R&R) Account in 2020. In addition to the maintenance and rehabilitation needs of the system, the Amended and Restated Trust Indenture, dated March 31, 1999 also permits the purchase of capital equipment under the R&R Account.

On August 29, 2019, the Illinois Tollway provided WSP with projected annual capital expenditures for the R&R Account for the years 2020 through 2026. These projected expenditures were developed by the Program Management Office (PMO) based upon methods understood by WSP to be consistent with sound engineering practice. The Illinois Tollway also identified the projected ending balance of the R&R Account for 2019 as approximately \$269 million, which includes the 2019 R&R deposit. WSP reviewed the data provided by the Illinois Tollway to identify the estimated deposits through 2026 required to maintain reasonable account balances based upon the estimated funds available and potential capital expenditures.

The PMO has estimated total draws for the R&R Program in 2020 to be approximately \$327 million. The combination of deposits and draws on the cash balance of the R&R Account will fund the projects in the Program, I-PASS Transponders, Information Technology projects, the Intelligent Transportation Systems program, and other Capital Projects. These values appear reasonable under the circumstances under which this letter was prepared. Based on these values, we recommend a deposit of \$240 million to the R&R Account for 2020.

The Illinois Tollway did not request WSP to provide and WSP does not offer to provide any services constituting the services of "municipal advisor" as defined in Federal Law (such as the Dodd-Frank Wall Street Reform and Consumer Protection Act), nor does WSP owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934 to the Illinois Tollway with respect to the information and material contained in this letter. This letter is based on WSP's professional judgement regarding the Illinois Tollway's practices, our understanding and judgment regarding setting levels for the R&R Account for

TOLLWAY GEC

2020, and our reliance of information supplied to us by the PMO. WSP does not make any warranty or representation that projected values mentioned here will actually be realized or achieved in 2020.

If we can be of further assistance, please feel free to contact me.

Sincerely,

WSP USA Inc.

Subject: DRAFT Annual Toll Revenue Certificate 2021

Dear Ms. Williams:

In accordance with the Trust Indenture of the Illinois State Toll Highway Authority (Tollway), Section 713(3), the Tollway's Traffic Engineer must submit an annual written estimate of toll revenue for the remainder of the current fiscal year 2020 and the subsequent fiscal year 2021. Estimates of expected revenue contained in this document incorporate the current known construction schedule, system improvements, rate schedule changes, state of the economy, impacts related to the ongoing COVID-19 pandemic, and other considerations pertaining to near-term estimated system performance.

Estimates are of expected revenue, which is the sum of all toll revenue that would be realized if 100 percent of transactions were recorded at the proper rate and resulted in full payment. Expected revenue does not include the effects of overpayments, underpayments, toll evasion, or toll evasion recovery. The term "revenue" in this document means expected revenue.

Short-term revenue forecasts are based on several key variables. CDM Smith reviews recent trends in the context of historical averages. This includes a review of actual transactions and revenue by plaza, month, vehicle classification, and payment type. Any variation from the prevailing trends is noted and, where possible, attributed to a particular event or ongoing condition. By understanding when and where these variances occur, CDM Smith can better estimate how similar events may impact Tollway performance in the future.

Following a thorough review of recent performance, CDM Smith addresses any factors that will affect traffic in the coming months and following year. Factors that may affect future traffic and revenue include scheduled construction, both on and off the system; system improvements, including added capacity or new interchanges; planned developments; and expected near-term economic trends

A new factor that has substantially reduced transaction and revenue performance on the Tollway system is the ongoing COVID-19 pandemic. The novel nature of the virus, as well as evolving public

Ms. Cathy Williams
September 23, 2020
Page 2

policy responses at the national, state, and local levels, introduces significant uncertainty into the near-term traffic and revenue forecasts.

Revenue Performance Year to Date

Total expected revenue for January through August 2020 is lower than expected revenue for the same period in 2019 by an estimated 12.8 percent, or \$124.5 million.¹ Starting in mid-March 2020, traffic volumes on the Tollway and throughout the U.S. decreased significantly as a result of social distancing measures adopted in response to the COVID-19 pandemic. In Illinois, social distancing measures include the governor's stay-at-home order first issued on March 20 and widespread school and workplace closures. **Figure 1** presents 2020 transaction trends by week, compared to 2019 levels and forecasted transactions for 2020 in CDM Smith's Annual Revenue Certificate (October 2019).

In the first two months of 2020, revenue grew by 6.3 percent compared to 2019, due in part to a decrease in construction work and mild winter weather impacts. For March through August 2020, revenues were 18.0 percent below 2019 revenues for the same period. Revenue impacts were most significant in April and May when COVID-19-related closures were most significant throughout the state of Illinois. Since then, revenues have gradually increased to approach 2019 levels, particularly for commercial vehicles (CVs), as the state has shifted from Phase 1 to Phase 4 of the Governor's *Restore Illinois* reopening plan. In July and August 2020, revenues were within 11.0 percent of 2019 revenues.

The impact of the pandemic restrictions and closures has been most significant on passenger cars (PCs). For March through August, PC expected revenues were 32.2 percent below 2019 expected revenues for the same period. In comparison, CV expected revenues were 1.9 percent below 2019 expected revenues for that period.

Revenue growth in 2021 is expected to outpace 2020 as economic and social recovery from the COVID-19 pandemic continues. In addition, natural growth in regional travel demand and the completion of construction projects on I-90, I-94, and I-294 will contribute to traffic growth. Nevertheless, revenue growth in 2021 is still expected to be dampened by ongoing construction activity, as summarized later in this report (**Table 4**).

The remainder of this document presents a review of transaction performance to date, recent economic performance, and a description of CDM Smith's forecasting methodology and findings.

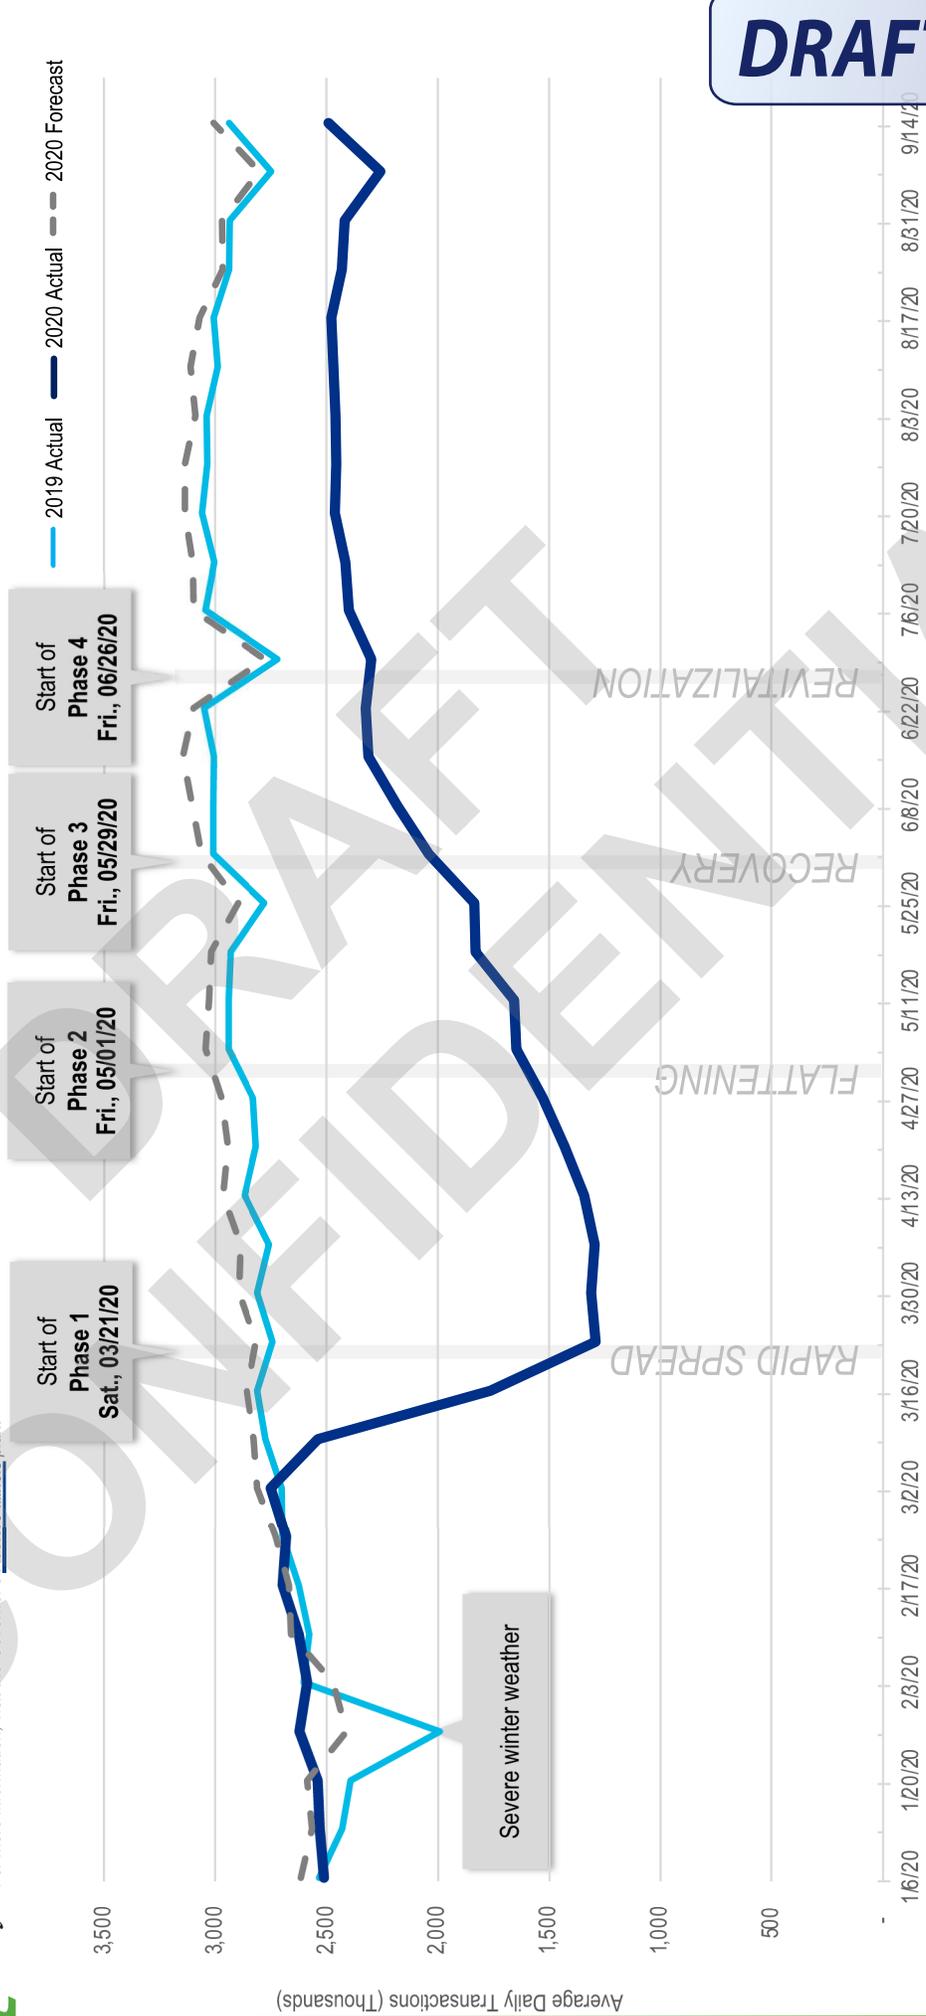

¹ Year-end audited results may differ.

 Page 4

Recent Transaction Trends

This section compares 2020 year-to-date transactions (January through August) to transaction trends over the last five years—between 2015 and 2019. The comparison is first presented for total transactions on the Tollway, followed by comparisons for PC and CV transactions.

Table 1 presents total observed systemwide transactions by month between January 2015 and August 2020. Between 2015 and 2017, transactions increased annually by an average of 6.4 percent. This significant growth can be attributed to continued economic growth, a rise in CV traffic, the opening of the new IL 390 Tollway, the completion of widening the Jane Addams Memorial Tollway, and the opening of new interchanges. In 2018 and 2019, growth declined to 1.2 and 1.4 percent, respectively. This lower growth rate can be attributed to several significant construction projects that began in 2018 and continued into 2019, including reconstruction and widening work on I-355, reconstruction on I-88 between York Road and I-290, reconstruction on the Edens Spur, and reconstruction and widening work on I-294 between the O’Hare Oasis and Balmoral Avenue. In addition, reconstruction work began on the BNSF Bridge and Mile-Long Bridge on the central Tri-State in 2019.

Ms. Cathy Williams
September 23, 2020
Page 5

Recent PC and CV transaction trends are presented in **Table 2** and **Table 3**. While still increasing year over year, PC transaction growth slowed in both 2018 and 2019 to 0.6 percent and 1.3 percent, respectively. These growth rates are lower than the 5.9 percent and 7.3 percent growth experienced in 2016 and 2017. The slower growth in PC transactions in 2018 and 2019 can be partially attributed to several construction projects that occurred in those years.

In contrast, CV transactions continued to show strong growth in 2018 despite the start of several significant construction projects. This trend can be attributed to high rates of CV diversion to alternate Tollway routes. In 2019, this CV diversion was dampened by an increase in construction on these competing routes, and growth slowed to 2.2 percent.

Economic Trends

CDM Smith reviewed recent socioeconomic trends and projections for the Chicago area, the Midwest, and the United States. Socioeconomic measures included regional long-term population and employment history and forecasts, historical variations in regional and national Gross Domestic Product (GDP) and unemployment, and short-term projections of national real GDP and unemployment from various sources. CDM Smith reviewed and incorporated data from 20 independent economic forecasting organizations.

The near-term economic outlook is strongly impacted by the ongoing COVID-19 pandemic. From March 2020 to early August 2020, at least 56 million individuals, more than one-third of the U.S. labor force, filed initial unemployment insurance claims due to policy responses and economic impacts from COVID-19. Many of these workers have since returned to previous jobs or found new employment opportunities elsewhere, but millions remain unemployed.

Per the Bureau of Labor Statistics, the national unemployment rate was 14.7 percent for April, subject to revision and with a footnote suggesting that the number may be underrepresented by 5

Ms. Cathy Williams
September 23, 2020
Page 7

percent. Since then, unemployment has slowly improved, with rates of 13.3 percent, 11.1 percent, and 10.2 percent for May, June, and July, respectively. Despite improving over recent months, the unemployment rate remains higher than the worst month of the Great Recession, when unemployment reached 10.0 percent in October 2009.

First quarter real GDP shrank by an annualized 5.0 percent, which is significant considering the loss occurred almost entirely in March, with growth having occurred in both January and February. Second quarter real GDP is forecasted to contract by an unprecedented annualized rate of 32.9 percent, according to the advance estimate from the U.S. Bureau of Economic Analysis. During the Great Recession, the largest impact was an 8.4 percent annualized decline between the second and third quarters of 2008.

For 2020, the average forecast across the independent sources reviewed by CDM Smith is a decline of 5.7 percent for national real GDP, which compares to the 2.3 percent growth observed in 2019. In 2021, the GDP is forecasted to resume positive growth across all forecasts, on average 3.7 percent, albeit not at rebounding rates. As a result, real GDP levels may be below 2019 levels, and perhaps closer to 2018 levels, in 2021.

An unemployment rate of 9.7 percent is forecast on average for 2020, with individual forecasts ranging from an 8.5 percent to a 12.9 percent unemployment rate. In 2021, the unemployment rate is forecast on average to improve to 7.9 percent.

Construction Projects

In 2011, the Tollway adopted the 15-year, \$12 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*. Major projects in that program include the widening of the Jane Addams Memorial Tollway (I-90), the construction of new access points on I-90, and the construction of the Elgin-O'Hare Western Access (IL 390 and I-490). In April 2017, the Tollway Board of Directors authorized an additional \$2.1 billion for the expansion of the central Tri-State Tollway, increasing the *Move Illinois* program to slightly more than \$14 billion.

Several construction projects on the Tollway system have impacted 2020 revenue and are expected to impact 2021 revenue. **Table 4** identifies the Tollway construction projects that are anticipated to have a significant impact on Illinois Tollway traffic and revenue in 2020 and 2021.

Ms. Cathy Williams
 September 23, 2020
 Page 8

Table 4. 2020 and 2021 Major Construction Projects on the Illinois Tollway System

Location	Description of Work
Reagan Memorial Tollway (I-88)	
IL 59 to Aurora Mainline Plaza	Pavement rehabilitation
Tri-State Tollway (I-94/I-294/I-80)	
Edens Spur	Reconstruction
95 th Street to Balmoral Avenue	Reconstruction and capacity improvements (Central Tri-State Master Plan)
I-294 at I-57	Interchange construction
Jane Addams Memorial Tollway (I-90)	
I-39 to Rockton Road	Pavement rehabilitation
I-90 at I-490	Interchange construction

Methodology and Assumptions

CDM Smith’s core methodology in developing the 2021 Revenue Certificate is similar to the methodology used in previous years. The forecast is based on historical performance evaluated at a monthly level. This level of detail allows construction impacts to be isolated and analyzed more effectively across years. Construction activity in particular has been found to significantly impact transactions, especially during the peak construction months, generally April to October. In addition, analysis at a monthly level allows CDM Smith to account for holiday and weather-related anomalies.

Other assumptions were used to calculate the forecasted expected revenue for the 2021 Revenue Certificate. For example, as of February 1, 2018, I-PASS customers who frequently use the Tollway without a transponder pay a higher toll rate. Under the revised policy, I-PASS customers that are video tolled (V-Tolled²) more than five times in a calendar month on any individual license plate registered to a customer’s I-PASS or other electronic tolling account will be charged the cash toll rate for the sixth and every subsequent V-Toll incurred that month.³ Based on year-to-date performance, CDM Smith estimates V-Toll revenue in the amount of \$9.0 million in 2020. Based on

² A V-Toll occurs when no transponder is read but, upon image review, the license plate is found to correspond to an I-PASS account. This may happen for a number of reasons, including the improper mounting of or absence of an I-PASS transponder. If an I-PASS account is in good standing, the V-Toll will be applied at the I-PASS rate, up to the monthly maximum set in Tollway policy.

³ Joint Committee on Administrative Rules. Title 92: Transportation. Chapter IV: Illinois State Toll Highway Authority. Section 2520.550: State Toll Highway Rules I-PASS Customer – Penalties and Fees.

Ms. Cathy Williams
September 23, 2020
Page 9

available trend data, CDM Smith expects a slight decline in surcharge revenue to \$8.7 million in 2021.

CV assumptions also impact forecast. Since 2018, CV toll rates have increased annually at the rate of inflation.⁴ CV rates increased 1.84 percent in 2018, 2.25 percent in 2019, and 2.07 percent in 2020. In 2021, rates will increase 1.56 percent. In addition to annual inflation-based toll rate increases, CV forecasts are impacted by the distribution of CV classes. CV forecasts are adjusted to reflect the most recent plaza-level classification distribution.

Lastly, an adjustment process is applied to account for variations in the monthly weekday/weekend distribution, the impacts of holidays, and weather impacts. Holiday impacts vary depending on the day of the week on which a holiday falls. Weather impacts vary in timing and severity. Expected monthly weather impacts are applied to December, January, February, and March based on average impacts for those months between 2007 and 2017 (excluding the very severe 2013-2014 winter). Winter weather is inherently unpredictable and could result in relatively volatile revenue performance. Applying average winter weather impacts to these four months helps to account for potential variability, but does not eliminate the risk of revenue impacts, as compared to forecast.

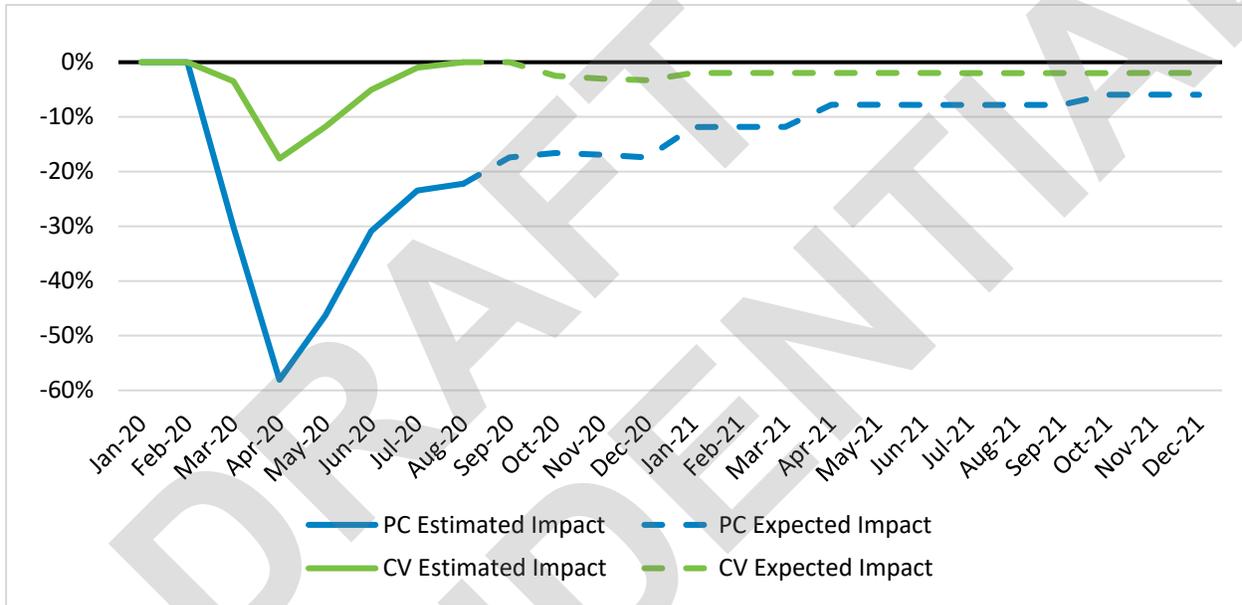

Estimated 2020 and 2021 Toll Revenue

As noted under Revenue Performance Year to Date (pages 2-3), starting in mid-March, travel behaviors changed significantly as states and localities began implementing social distancing measures in response to the COVID-19 pandemic. Although recent months have seen positive trends, transaction and revenue performance remains well below expected and historical trends. In addition, significant uncertainty remains to both short-term and long-term travel impacts related to the COVID-19 pandemic. CDM Smith used the best available information at the time of developing these forecasts.

Figure 2 illustrates the estimated impact of the COVID-19 pandemic on transactions between January and August 2020 and the expected impact, included in the forecast, for September 2020 through December 2021. For PC transactions, the impact is expected to be about 17.4 percent in September 2020, which is lower than the estimated impact observed in July and August 2020. The impact is then expected to average 17.0 percent in the last quarter of 2020, 11.8 percent in the first quarter of 2021, and 7.8 percent in the second and third quarters of 2021, and decline to 5.9 percent in the last quarter of 2021.

⁴ Consumer Price Index for all Urban Consumers, or its successor index, over the 12-month period ending on June 30th of the previous year. Source: Illinois Tollway Board Resolution No. 18516, dated November 20, 2008.

**Figure 2. Estimated and Expected Impact of the COVID-19 Pandemic on PC and CV Transactions
 January 2020-December 2021**

In recent months, CV transaction volumes appear to have recovered from the initial pandemic related dips with volumes that were slightly below or similar to previously forecast volumes in July and August. CV transactions continue to have strong performance for September with transaction volumes at or above the previous, pre-COVID forecast. Despite strong recent performance, significant economic uncertainty remains a concern for future traffic demand. Between October and December 2020, CV transactions are forecasted to decrease as a result of the continued stress on economic conditions. In the last quarter of 2020, CV transactions are forecasted at 2.9 percent below the pre-COVID-19 forecast volumes on average. In 2021, the impact on CV transactions is expected to lower slightly to an average of 2.0 percent below the pre-COVID-19 pandemic forecast.

Total expected toll revenue is estimated at approximately \$1.3 billion in 2020 and \$1.5 billion in 2021. In addition to the anticipated impacts of the pandemic, revenue in 2020 and 2021 is a function of natural growth in travel demand, scheduled construction activity, the CV toll rate increase, an increase in I-PASS participation, and the application of cash toll rates to some V-Toll transactions. **Table 5** presents actual transactions and revenue for January through August 2020 and estimated transactions and revenue for September through December 2020. **Table 6** presents estimates for 2021.

Ms. Cathy Williams

COVID-19 Sensitivity Test

The COVID-19 pandemic presents a high level of uncertainty to the short-term transaction and revenue forecast for the Tollway. To acknowledge this uncertainty, CDM Smith conducted a sensitivity test addressing a possible re-emergence of the COVID-19 virus (see **Figure 3**). This sensitivity test assumes a resurgence of COVID-19 cases in Illinois in late Fall 2020, pushing the state back to earlier phases of the Governor's *Restore Illinois* Plan. This second surge is expected to decline by March 2021 with continued recovery through the end of 2021. Under this scenario, CDM Smith estimates that the reintroduction of social distancing measures would result in a \$20 million decrease to forecasted 2020 revenues and a \$15 million decrease to forecasted 2021 revenues for a total impact of approximately \$35.0 million.

**Figure 3. Estimated and Expected Impact of the COVID-19 Pandemic with Resurgence
January 2020-December 2021**

Disclaimer

CDM Smith used currently-accepted professional practices and procedures in the development of the traffic and revenue estimates in this report. However, as with any forecast, it should be understood that differences between forecasted and actual results may occur, as caused by events and circumstances beyond the control of the forecasters. In formulating the estimates, CDM Smith reasonably relied upon the accuracy and completeness of information provided (both written and oral) by the Illinois State Toll Highway Authority (ISTHA) and its consultants. CDM Smith also relied upon the reasonable assurances of independent parties and is not aware of any material facts that would make such information misleading.

CDM Smith made qualitative judgments related to several key variables in the development and analysis of the traffic and revenue estimates that must be considered as a whole; therefore, selecting portions of any individual result without consideration of the intent of the whole may create a misleading or incomplete view of the results and the underlying methodologies used to obtain the results. CDM Smith gives no opinion as to the value or merit of partial information extracted from this report.

All estimates and projections reported herein are based on CDM Smith's experience and judgment and on a review of information obtained from multiple agencies, including the Illinois Department of Transportation and the Chicago Metropolitan Agency for Planning. These estimates and projections may not be indicative of actual or future values and are therefore subject to substantial uncertainty. Certain variables such as future developments, economic cycles, global pandemics and impacts related to advances in automotive technology etc. cannot be predicted with certainty and may affect the estimates or projections expressed in this report, such that CDM Smith does not specifically guarantee or warrant any estimate or projection contained within this report.

While CDM Smith believes that the projections and other forward-looking statements contained within the report are based on reasonable assumptions as of the date of the report, such forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from the results predicted. Therefore, following the date of this report, CDM Smith will take no responsibility or assume any obligation to advise of changes that may affect its assumptions contained within the report, as they pertain to socioeconomic and demographic forecasts, proposed residential or commercial land use development projects and/or potential improvements to the regional transportation network.

CDM Smith is not, and has not been, a municipal advisor as defined in Federal law (the Dodd-Frank Act) to the ISTHA and does not owe a fiduciary duty pursuant to Section 15B of the Exchange Act to ISTHA with respect to the information and material contained in this report. CDM Smith is not recommending and has not recommended any action to ISTHA. ISTHA should discuss the information and material contained in this report with any and all internal and external advisors that it deems appropriate before acting on this information.

**2021 BUDGET
THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
CERTIFICATE OF AUTHORIZED OFFICER**

Set forth below is a statement showing actual and estimated Revenues (based on expected toll revenues* prepared by CDM Smith as Traffic Engineers), Operating Expenses, Aggregate Debt Service, and Renewal and Replacement Deposits (as per letters prepared by WSP as Consulting Engineers) for the years 2020 and 2021. This statement is prepared for the purpose of determining whether the Net Revenues, as projected, will be sufficient to at least equal the Net Revenue Requirement in each of such years, in accordance with the requirements of Section 713 of the Trust Indenture.

NET REVENUES AND THE NET REVENUE REQUIREMENT

(All amounts in \$millions)

Actual 2020 Revenues - First Eight Months:

	<u>FY 2020</u>
Toll Revenues *	\$754.1
Evasion Recovery	38.2
Investment Income	12.2
Concessions and Miscellaneous	11.5
First Eight Months Actual 2020 Revenues	<u><u>\$816.0</u></u>

Estimated 2020 Revenues - Last Four Months:

	<u>FY 2020</u>
Toll Revenues *	\$406.7
Evasion Recovery	40.1
Investment Income	2.8
Concessions and Miscellaneous	3.5
Last Four Months Estimated 2020 Revenues	<u><u>\$453.0</u></u>

Estimated Revenues:

	<u>FY 2020</u>	<u>FY 2021</u>
Toll Revenues *	\$1,160.8	\$1,322.5
Evasion Recovery	79.2	72.5
Investment Income	15.0	10.0
Concessions and Miscellaneous	15.0	10.0
Total Estimated Revenues	<u><u>\$1,270.0</u></u>	<u><u>\$1,415.0</u></u>

Less Budgeted Operating Expenses:

	<u><u>(\$380.2)</u></u>	<u><u>(\$380.0)</u></u>
--	-------------------------	-------------------------

ESTIMATED NET REVENUES

\$889.8 \$1,035.0

Aggregate Debt Service	\$445.2	\$482.0
Renewal and Replacement Account Deposits per WSP	120.0	228.0

Net Revenue Requirement is the greater of the following:

1.3x Aggregate Debt Service	\$578.72	\$626.54
Debt Service + Renewal and Replacement Account Deposits	\$565.2	\$710.0

NET REVENUE REQUIREMENT

\$578.7 \$710.0

Net Revenues in Excess of Net Revenue Requirement

\$311.0 \$325.0

Build America Bond subsidies reduce transfers required for Debt Service	\$13.6	\$13.6
Other adjustments to transfers from Revenue Fund to Operating and Debt Service Accts	(1.8)	5.3

Additional deposits to Renewal and Replacement Account and Improvement Account

\$336.3 \$343.9

* CDM Smith has estimated expected toll revenues to total \$1,304.2 million in 2020 and \$1,469.4 million in 2021. The amounts included in this certificate are adjusted to reflect the Tollway's estimate of evaded tolls and underpayments. These adjustments reduce toll revenues by \$143.5 million in 2020 and \$146.9 million in 2021.

Totals may not add due to rounding.

Order against a CMS Master Contract

Contract #: 19-0171

Vendor: CMS Master contract with the insurance broker Mesirow Insurance Services for insurance coverages required by the state. Per the terms of the CMS Master Contract, the Tollway is required to use the Joint Purchasing Master Contract (JPMC) Insurance Brokerage Services of Mesirow Insurance Services.

Description: The Finance Department recommends acceptance of a proposal for an Owner Provided Insurance program known as a Rolling Owner Controlled Insurance Program (ROCIP). A ROCIP is an ongoing, or rolling, controlled insurance program. The ROCIP insures ongoing construction programs covering multiple projects. Projects are rolled into and out of the program as they are started and completed. The date projects are removed from the program can vary but most provide an extended period of completed operations coverage. The coverage will be General Liability only and will allow smaller businesses to bid without having to procure the limits required by the Tollway. The primary insurance broker for these policies will be Mesirow Insurance Services with a BEP partner, Charles Smith of CS Insurance Strategies, Inc.

Scope: Request approval of a three (3) year program beginning 01/01/2021 through 12/31/2023 obtained through a CMS Master Contract for Insurance Broker Services.

Amount: \$3.9 million estimated premium including fees, claims administration and loss fund based on contract value of \$75,073,927.00 to be audited annually for the three-year term.

Company Information

Allied World Surplus Lines Insurance Company (1st and 2nd layers) rated A (XV), Illinois Union Insurance Company (3rd layer) Rated A++ (XV), Underwriters at Lloyd's of London (4th layer) rated A (XV), Wrap Up Solutions, Inc. with a sub GBG, Inc (Wrap-Up Administrators)

Contract Renewal – State Use Program

Contract #: 17-0172**Vendor:** Ada S. McKinley Community Services, Inc.; Chicago, IL (State Use Vendor)**Description:** Transponder Fulfillment Services

Scope: This contract provides a source for the purchase of transponder fulfillment services. Ada S. McKinley fulfills orders received via the Tollway’s website, call center, and postal mail. The Illinois Tollway fills more than 300,000 new I-PASS transponder orders per year via this contract and has issued more than five million transponders to date. Additionally, Ada S. McKinley provides services to support the commercial transponder replacement program which exchanges expired transponders for commercial accountholders. Transponder fulfillment services are critical to the I-PASS program which accounts for more than 90 percent of all toll revenue collected.

Amount: \$2,434,198.00

Company Information

Ada S. McKinley was founded in 1919 and works to bring positive change to the lives of thousands of individuals through social services. Through the Division of Adult Rehabilitation Services (“DOARS”), Ada S. McKinley works to remove the barriers that prevent adults living with disabilities from achieving employment. DOARS operates a wide network of support services with three vocational training facilities across the city of Chicago, as well as work-placement partnerships with a number of government offices and other organizations. Ada S. McKinley is certified as a Sheltered Workshop (SWS) in the State Use Program.

Extra Work Order

Contract #: I-18-4427

Vendor: Plote Construction, Inc. / Dunnet Bay Construction Co., JV; Hoffman Estates, IL

Description: Roadway and Bridge Rehabilitation

Location: Tri-State Tollway (I-294) from MP 37.85 to MP 40.15

Change Amount: \$503,820.63

Reason: This construction contract extra work order provides for unanticipated joint repairs to both the northbound and southbound bridges carrying the Tri-State Tollway (I-294) over the Canadian National Railway. The need for the added work was initially identified during snow removal operations last year and an initial authorization provided for procurement of materials for the permanent repair. Work impacted all lanes of traffic and needed to be scheduled during off peak times and required coordination with the Railroad to allow for unanticipated access. Due to complexity and uncertainty on allowable times to perform the work it was agreed to track actual costs based on time and materials used. These records and the final costs are now being finalized.

Impact on Completion: No current impact.

Company Information

Plote Construction was founded in 1964 and incorporated in Illinois. They are headquartered in Hoffman Estates, IL, and provides construction services including excavation, grading and building.

Dunnet Bay Construction is a private company that was established in 1983 and is headquartered in Glendale Heights. The firm specializes in heavy highway construction services.

Extra Work Order

Contract #: I-18-4374

Vendor: Lorig Construction Company; Des Plaines, IL

Description: Roadway and Bridge Reconstruction

Location: Tri-State Tollway Edens Spur (I-94) from MP 29.0 (West of Union Pacific Railroad) to MP 30.0 (Edens Expressway)

Change Amount: \$584,985.00

Reason: This construction contract extra work order will provide for schedule recovery, in the form of premium time for extended shifts and weekend work, required to return the reconstructed Edens Spur (I-94) to Tollway customers by the end of this year and minimize potential cost impacts of extending the project. This added work is necessary to recover time lost due to delays in obtaining Union Pacific railroad right of entry.

Impact on Completion: No current impact.

Company Information

Lorig Construction Company is a family owned business that was founded in 1986. The firm is incorporated in Illinois and is headquartered in Des Plaines, IL, and has a staff of over 300. Extra Work Order

Contract #: I-19-4449

Vendor: Plote Construction, Inc. / Dunnet Bay Construction Co., JV; Hoffman Estates, IL

Description: Roadway and Bridge Widening and Rehabilitation

Location: Tri-State Tollway (I-294) from MP 36.3 (Wolf Road) to MP 39.8 (Balmoral Avenue)

Change Amount: \$500,000.00

Reason: This construction contract extra work order provides for schedule recovery, in the form of additional mobilizations, resequencing of work and premium time required to install the on-going work on Tri-State Tollway (I-294) bridges over Bensenville in an acceptable configuration for winter traffic. This schedule recovery effort will mitigate delays incurred to redesign and address added work associated with an existing retaining wall.

Impact on Completion: No current impact.

Company Information

Plote Construction was founded in 1964 and incorporated in Illinois. They are headquartered in Hoffman Estates, IL and provides construction services including excavation, grading and building.

Dunnet Bay Construction is a private company that was established in 1983 and is headquartered in Glendale Heights. The firm specializes in heavy highway construction services.

Contract Award – Tollway Invitation for Bid

Contract #: 18-0111RRR

Vendors: William Charles Construction Company, LLC; Rockford, IL \$144,900.00
 Tiles In Style LLC (d.b.a. Taza Supplies); Willowbrook, IL (BEP/SB) \$94,395.00
 Civil Constructors, Inc.; Freeport, IL \$74,250.00

Description: Stone, Gravel, and Limestone

Scope: This contract provides a source for the purchase of various grades of stone, gravel, and limestone for ongoing maintenance of the Illinois Tollway’s roadway system. All stone, gravel and limestone orders shall be picked up by the Tollway at the awarded vendor’s pit-quarry.

Amount: \$627,090.00 (total requested for the initial term and the possible renewal term)

Company Information

William Charles Construction Company is a limited liability company with 61 years in business and approximately 240 employees. They specialize in construction services and road and highway building materials.

Tiles in Style (doing business as Taza Supplies) is a limited liability company with 13 years in business and approximately 10 employees. They specialize in governmental procurement needs for construction goods and technology products. Tiles in Style is a BEP certified vendor. They are also a registered small business in the State of Illinois.

Civil Constructors is incorporated with 74 years in business with approximately 210 employees. They are a prime contractor for commercial and industrial public works projects.

Contract #: 20-0150

Vendors:	Cargill, Inc.; North Olmsted, OH	\$4,389,666.48
	Morton Salt, Inc.; Chicago, IL	\$850,476.00

Description: Bulk Rock Salt

Scope: This contract will provide a source for the purchase of bulk rock salt (sodium chloride) which is used for snow- and ice-removal operations by the Tollway's Roadway Maintenance personnel.

Amount: \$5,240,142.48

Company Information

Cargill is incorporated with 155 years in business and approximately 160,000 employees worldwide. They produce, package, and ship salt for a wide range of market segments, including agricultural, food, water conditioning, industrial, and chemical and packaged ice control. The business segment of Cargill which is being utilized for this contract is Cargill's Deicing Technology Business which is headquartered in North Olmsted, Ohio.

Morton Salt (part of the K&S Group) is incorporated with 172 years in business and approximately 3,000 employees. They produce table and specialty salts, water softening products and ice melters. Morton also supplies salt to a wide range of industries, such as food and pharmaceuticals.

Land Acquisition - Sale of Excess Property

Contract #: N/A

Description: This resolution authorizes the sale of Parcel TW-3B-229.2.EX, located west of I-294 and north of 75th Street to the Village of Hodgkins.

Scope: Land Acquisition has been approached by the Village of Hodgkins to sell the parcel which would provide for development purposes.

- Date of original purchase: 1/20/94;
- The excess property consists of 31,874 square feet;
- Proposed development: The property will be used for customer parking and a drive through for a restaurant. Given the proximity to I-294, the drive through and the customer parking from the property will be essential for the success of the project. If the project is fully implemented, it will be a significant benefit for the City of Countryside, Village of Hodgkins and State of Illinois. The Tollway is also considering implementing commercial vehicle parking within existing Tollway right-of-way in a nearby location. The development of a restaurant would complement commercial parking by providing food and other amenities.

The Excess Property Committee determined the parcel was excess to the Tollway’s needs and approved the parcel to be sold via Quitclaim.

Amount: \$446,236.00

Project or Annual Budget Detail

Land Acquisition - Transfer of Excess Property

Contract #: N/A**Description:** This resolution authorizes the transfer of Parcels NW-7B-12-901.2.EX and N-7B-45.3EX, located along Jarvis Avenue, Des Plaines, Il. to Chicago Title Land Trust Company as Trustee under Trust Agreement dated March 14, 2011 known as Trust No. 8002356758 (Ozinga).**Scope:** As part of the settlement agreement between the Illinois Tollway (Tollway) and Ozinga for acquisition of Parcel NW-7B-12-003, a portion of Tollway right of way Parcels NW-7B-12-901 and N-7B-45.3 are required to be transferred to Ozinga.

- Date of original purchases: Parcel NW-7B-901.2 8/26/20 and Parcel N-7B-45.3 5/20/57;
- The excess property consists of 49,890 square feet;
- The Tollway acquired Parcel NW-7B-12-901 for the Elgin O'Hare Western Access (EOWA) Project from the City of Des Plaines at no cost in 2020. The parcel is located at the westerly end of Jarvis Avenue in Des Plaines. This portion of Jarvis Avenue previously provided access to the Des Plaines Oasis, which was removed in 2015 for construction of the EOWA project improvements. The acquisition of this parcel was required for construction of the I-90/I-490 system interchange, including, but not limited to, for earthwork and utility relocation;
- The excess Parcel NW-7B-12-901.2EX is not required for operation or maintenance of the toll highway system. Tollway Maintenance will be able to access the future I-490 corridor via an access road owned and operated by the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC) at the Touhy Avenue Reservoir located east of the excess parcel along existing Jarvis Avenue;
- The Tollway acquired Parcel NW-7B-45.3 for construction and operation of the Des Plaines Oasis in 1957, with 3.31+/- acres currently remaining as Tollway owned land. The parcel is located north of the westerly end of Jarvis Avenue in Des Plaines. As part of the EOWA project improvements, the Des Plaines Oasis was demolished in 2015;
- The excess Parcel N-7B-45.3EX is not required for operation or maintenance of the toll highway system; however, the Tollway will retain a Permanent Easement along the northwestern limits of the excess parcel. The permanent easement is required for future maintenance access to the back of the retaining wall located along the proposed northbound I-490 to eastbound I-90 ramp.

The Excess Property Committee determined the parcels are excess to the Tollway's needs and approved the parcels to be transferred via Quitclaim.

Intergovernmental Agreement

Contract #: N/A

Description: An Intergovernmental Agreement with the Village of Hodgkins (“Village”)

Scope: The Tollway owns approximately 31,874 square feet of real property located north of 75th Street and west of the southbound I-294 75th Street exit ramp (“Parcel”). The Village submitted a request to purchase the Parcel for the purpose of economic development. The Tollway does not anticipate needing the Parcel for toll highway maintenance, operations or future construction improvements and regards the Parcel as excess to its needs. Accordingly, the Tollway declared the Parcel Excess Property and agrees it should convey the Parcel to the Village at fair market value, specifically, \$14.00 per square foot. If the Village reconveys the Parcel, the Village will reimburse the Tollway any amount in excess of \$14.00 per square foot that it recovers.

Amount: IGA cost: The Tollway will receive approximately \$446,236.00 for the Parcel.
